

Valentine Hanging Love Heart

Print on heavy card stock. Cut out all the parts to the Valentine Heart. Using black construction paper, cut out 4 long strips about the size of ruler length and width. Fold each strip like an accordion back and forth so that you end up with bouncy legs and arms. Attach hands and feet to each one using glue or tape. Attach all parts to the Valentine heart. Hang on the wall or ceiling.

Optional: Print on plain paper and glue on bristol board.
