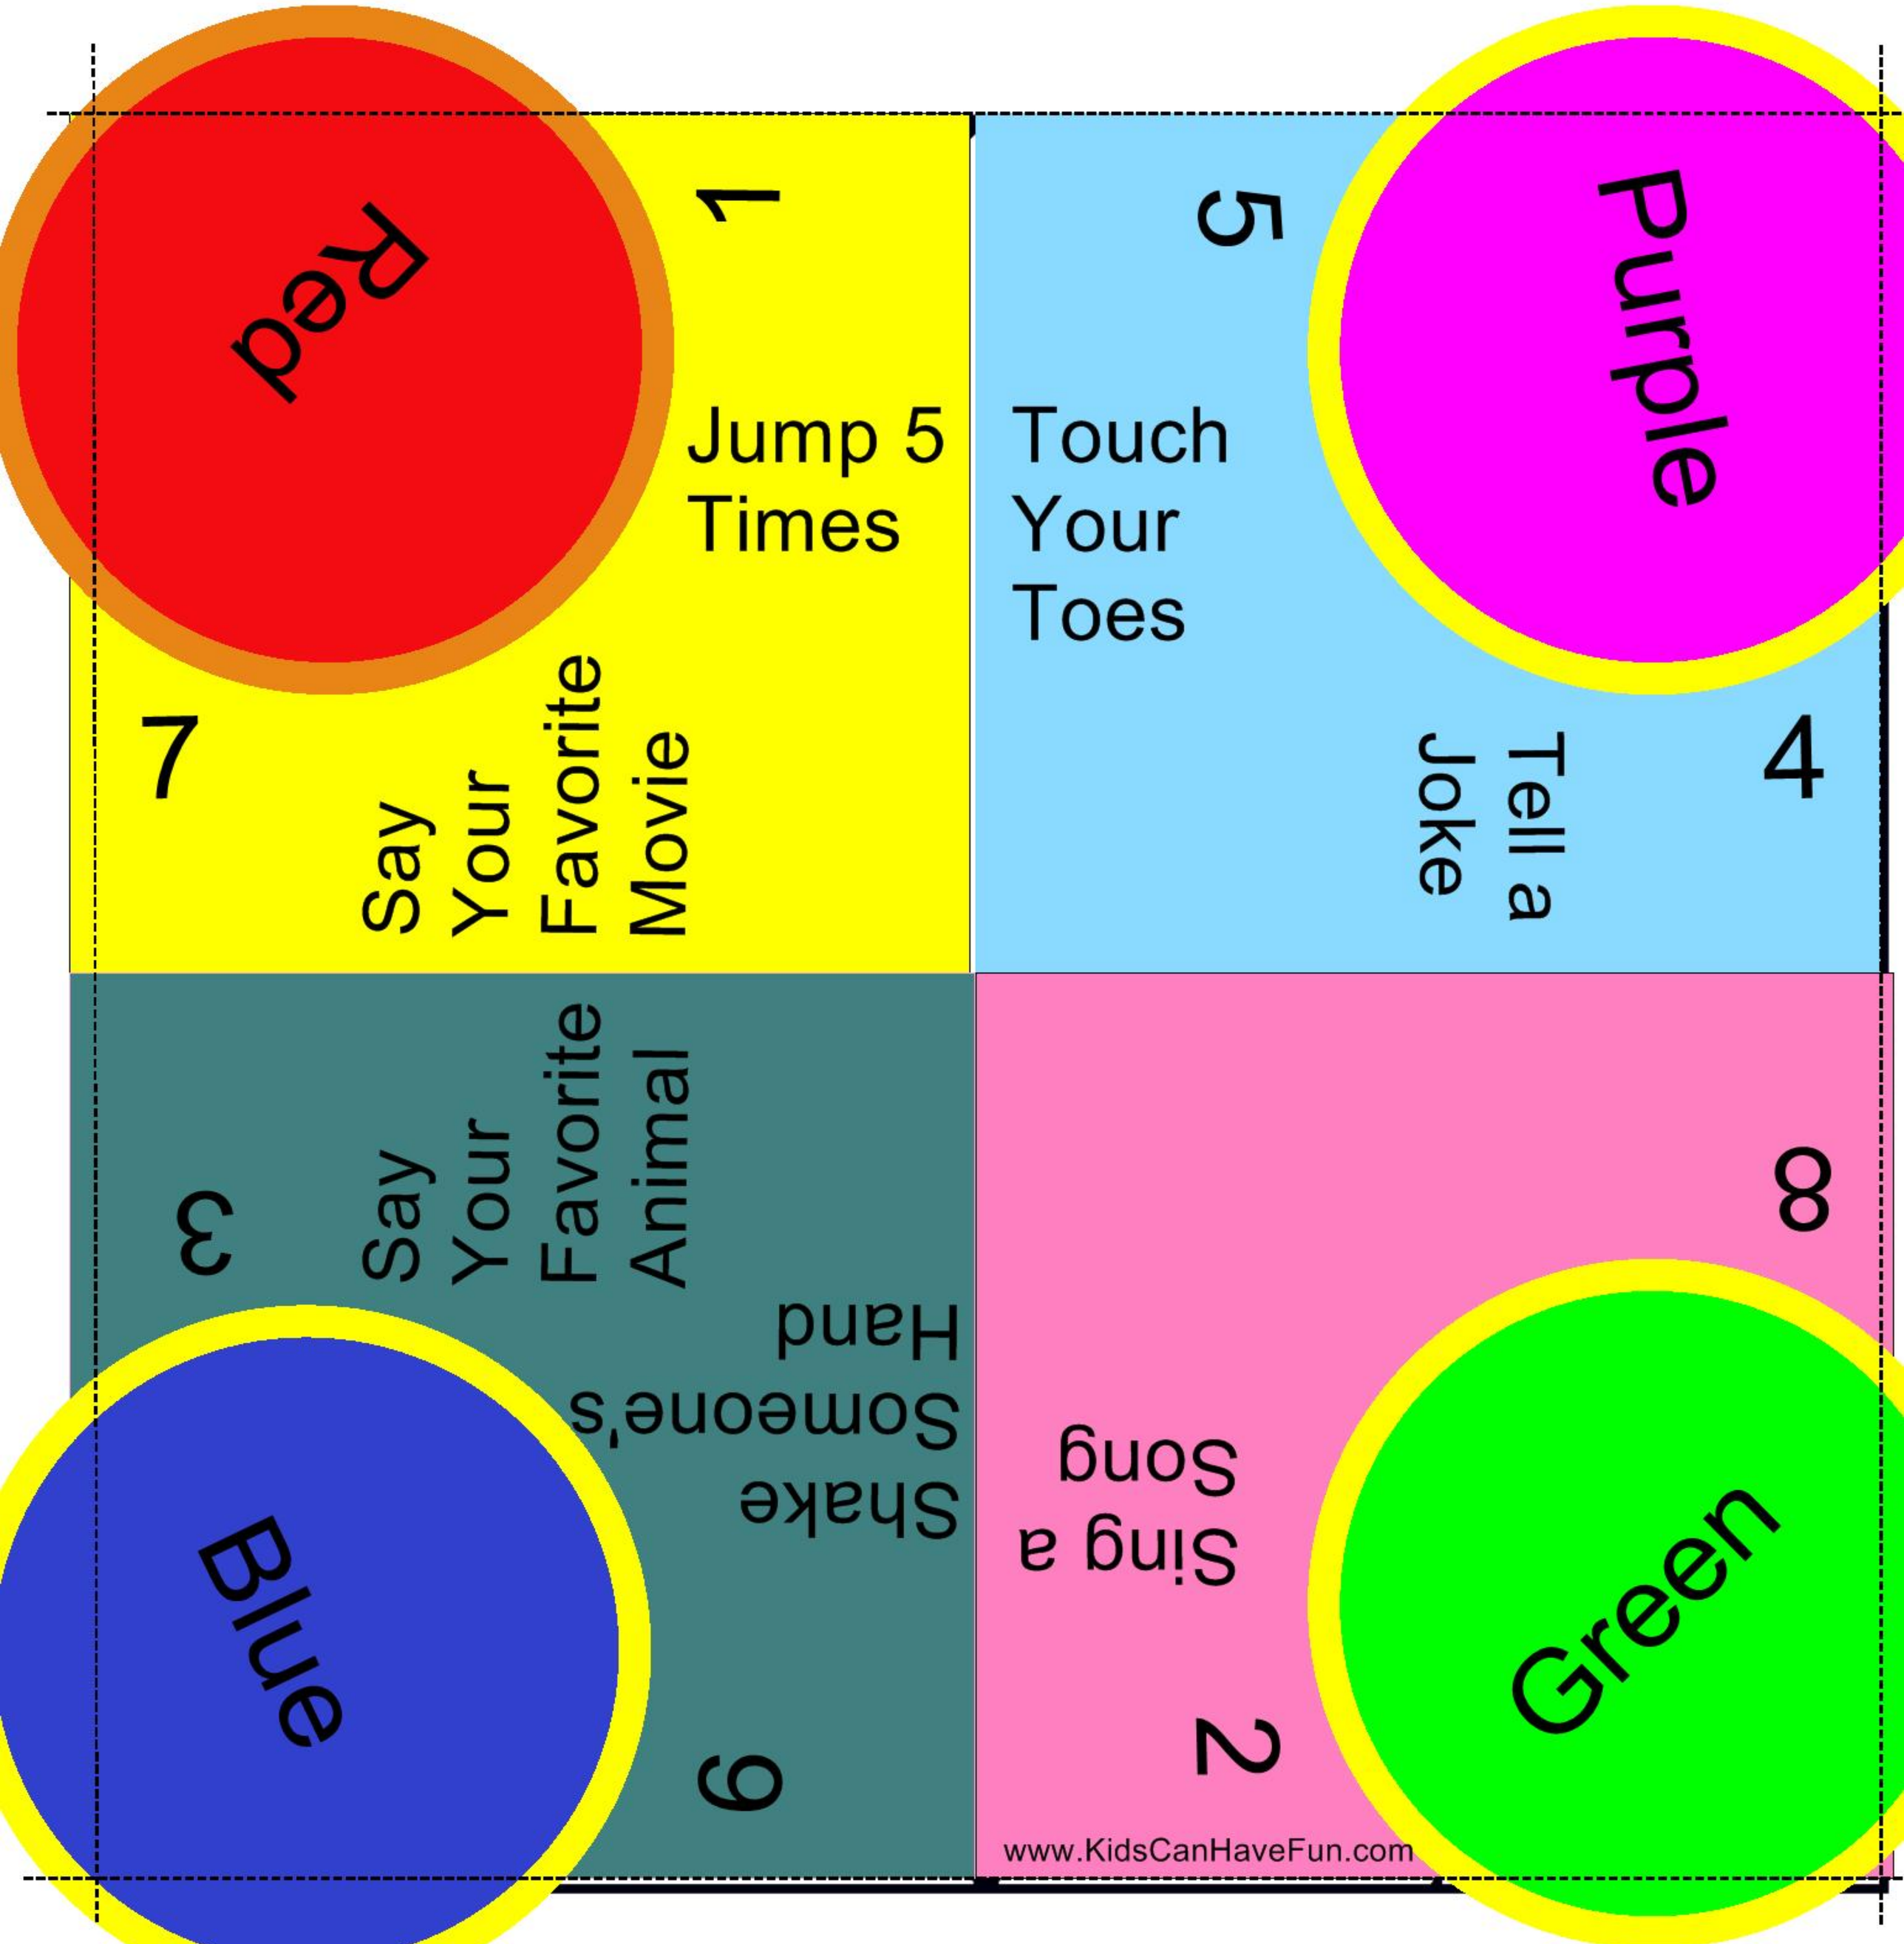
Folded Paper Game Craft

1. Print on regular paper and cut along dotted lines to form a square sheet.
2. With the image side face down, fold each corner in to the center-point.
4. Turn over and fold the new corners in to the center-point (the numbers should be face up)
5. Form a crease by folding in half vertically and unfolding. Then fold in half horizontally.
6. Insert thumbs and index fingers under the flaps (Blue, Green, Red, Purple) and pinch together to the center to make a cone.

How to Play


While holding the game as a cone with fingers in the flaps, ask a friend to choose a color. Open the game and ask them to choose a number under the color. Lift the flap with the number. Have the child read what the other child must do or answer. Now its the other childs turn to play the game.
