

# Traffic Lights

# Traffic Lights

Instructions:

1. Print and cut out traffic lights and circles.
2. Attach stick to back of traffic lights (electrical tape works best).
3. Use colored circles to tape circles on traffic lights. Tape them on the side of the grey circles. Bend the colored lights at the dotted line.
4. Bend the correct traffic color on top of the grey circle to change lights.
5. Now you can play traffic cop, or use it to play with your ride-ons.

Optional: Glue or tape to cardboard.
