

Pizza Fractions

Pizza Fractions

Instructions:

1. Print out pizza on card stock paper or plain paper.
2. Cut out the pizza and its pieces.
3. Teach the children their fractions by allowing them to put the pizza together and then handing out pieces of pizza for everyone. Ask them after each piece what fraction has been cut. For example, one piece cut = $\frac{1}{8}$ of pizza. What fraction of pizza is left? $\frac{7}{8}$ of the pizza is left.
