

# Spider Web Fractions

# Spider Web Fractions

## Instructions:

1. Print out Spider Web on card stock paper or plain paper.
2. Cut along the dotted line to make the Spider Web pieces.
3. Teach the children their fractions by allowing them to put the spider web together and then handing out pieces of the spider web to everyone. Ask them after each piece what fraction has been cut. For example, one piece cut =  $\frac{1}{8}$  of spider web. What fraction of spider is left?  $\frac{7}{8}$  of the spider web is left.
